Program Agreement

This agreement shall commence as of August 1, 2025. This program agreement shall abide by all language of the Institutional Agreement between Grand Rapids Community College and Western Michigan University.

WMU's Child Development and Services program prepares individuals to work with children, and their families, in a range of care and service settings. This major centers on the development of children, birth through school age, and the cultivation of skills, environments, and programs that promote healthy child development and outcomes. Interpersonal relationships and communications; diverse family systems; parent education; family law and policy; and professional ethics and competencies are emphasized.

The Child Development and Services program includes a selection of courses within one of two tracks: Child Programming and Administration (fulfills State of Michigan requirements for childcare center directors) or Child Life Foundations (provides fundamental knowledge for service as a child life specialist).
