

# Academic and Information Technology Council: 2025-2026 Action Plan

## Prior Year Wrap-up:

- Course Delivery Definitions

## Current Focuses:

- Charge 1: Serve as a consultative body to the Office of Information Technology for artificial intelligence utilization, adoption, and access needs across campus. Provide faculty representation to campus-wide artificial intelligence initiatives. Conclude the initiative by producing a report to the Executive Board or a Memorandum of Action.
- Charge 2a: Query virtual meeting platforms and their uses among colleges and departments.
- Charge 3: Serve as a consultative body to the Office of Information Technology on security policies; continue to evaluate data security and existing policies. Explore strategies to best promote cybersecurity policies on campus. Conclude the initiative by producing a report to the Executive Board or a Memorandum of Action.

## Cross-Council/Committee Collaboration:

- AI-related charges within 4 other Faculty Senate Councils/Committees
