## **Program Information**

The Event Management Major is a 51-credit hour program that creates four different pathway options for career development and experiential learning. The interdisciplinary program is designed to include coursework across nine WMU departments allowing students to learn from a variety of experts. The core program focuses on event ideation, program design, technology, project management, execution management, and budgeting. The experiential learning component intentionally connects students to the community by partnering with community businesses to learn project management and event execution. The curriculum is designed to support the Meeting Planner International (MPI) standards with courses that focus on event production for meetings, conventions, festivals, and corporate events. Students can design their own pathways throughout the program, but the curriculum is designed to support the following pathways: corporate and community event management; festival, music, and community events; nonprofit event management; and conventions and meeting expos.

### **Program Agreement**

M. Dunneback

This agreement shall commence as of August 28, 2024. This program agreement shall abide by all language of the Institutional Agreement between Kalamazoo Valley Community College and Western Michigan University.

Mark Dunneback, Dean of Instruction,

Business and Technical Careers
