

Strategic Choices: Building Sustainable Access

Ed Eckel
Chair, University Libraries

WESTERN MICHIGAN UNIVERSITY
University Libraries

Sustainable Access to Essential Resources

- **Your priority:** access to essential research resources.
- **Our priority:** delivering that access efficiently and affordably.
- **The challenge:** a complex publishing ecosystem you help to shape.
- **The opportunity:** partnership in our collection strategy.

A Fragile Partnership

Researchers provide content

Publishers provide

- Venue
- DOIs
- Brand recognition
- Innovation

Publishers control access and pricing!

What do
you provide
in return?

Our Researchers Contribute

Free content and peer-review...

- WMU pays for time, space and equipment.
- The University Libraries pays for access for you and your students.

...and then faculty pay to make their own work freely available.

Scholarly Publishing Changed

1995-2005 – Shift to mix of print and online materials

- Journals
- Databases
- Ebooks

• **2005-2010** – Shift to **mostly online materials**

• **2010-present** – Prices rise while Library budget flattens or is cut (2020).

Collaboration with Departments

Switching to title-by-title selection.

- Look at “cost-per-use.”
- Identify “**core**” or **essential** resources.
- **We need your input!**

We must be strategic!

Leveraging Open Access (OA)

WMU authors are publishing OA.

- 27% of 2024 publications.
- Challenge – it can cost you. APCs are often over \$2000 per article.

How we are responding to OA challenges:

- Transformative agreements cover the cost of APCs.
- Encouraging use of repositories.

Partner With Your Library

Know your library liaison.

- Invite us to your departments to talk about these issues.

Use and assign library resources often.

Talk to us:

- What are your challenges with information resources?
- What are the most important journals and databases in your area?

We Have Agency – Together!

Partner with University Libraries.

- Maximize the quality, equity and sustainability of our collections.
- Maximize the reach and impact of your research and teaching.

Acknowledgements

Thanks to the following colleagues for assistance with this presentation:

- Michele Behr
- Michael J. Duffy
- Paul Gallagher
- Julie Garrison
- LuMarie Guth
- Paul Heintz
- Geri Rinna
- Dianna Sachs
