## SYMPOSIUM OBJECTIVES

- **Deepen Understanding of Dyslexia and Integrated Support:** Equip educators, administrators, and interventionists with an in-depth understanding of how academic, social, emotional, and behavioral health intersect to support students with dyslexia effectively.
- **Implement Effective Instructional Practices:** Provide evidence-based strategies for educators to deliver instruction within a Multi-tiered System of Supports (MTSS), promoting academic success for students with dyslexia.
- **Discuss How to Strengthen Partnerships between Schools and WMU teacher education:** with a focus on addressing dyslexia and reading intervention (I added this third one, Nicole and Chris; the other two are outcomes for the symposia)
