

PROPOSAL: Create the Undergraduate Certificate Program in Semiconductors

Background

The Undergraduate Studies Council of the Faculty Senate has approved the creation of the Undergraduate Certificate Program in Semiconductors offered by the Department of Electrical and Computer Engineering in the College of Engineering and Applied Sciences.

The Department of Electrical and Computer Engineering was recently awarded funding by the Michigan Economic Development Corporation (MEDC) to develop a certificate programs Semiconductors. The certificate program in Semiconductors will be guided by direct industry input and specifically designed for in-demand priority roles.

Students will boost their careers with an in-demand, 15-credit certificate in semiconductors. This career-ready program will enhance students' careers.

Recommended Action

Create the Undergraduate Certificate Program in Semiconductors.
