### **New Business**

Discussion was held regarding MOA-18/05: *Creation of Undergraduate GPA Revision Policy*. This policy offers a second chance for students to remove the grades from up to three classes where they received grades of X or E when they switch to a different major. With over five years of experience with the policy, the committee discussed how well the policy has worked and whether changes should be made to improve the policy and increase student retention. Currently the registrar's offices receive about 30 grade revision requests per semester.

Discussion was held regarding the Service-Learning Approval Committee and replacement with an Experiential Learning Committee. MOA-25/03: *Revise Undergraduate Catalog of Terms for Experiential Learning* defines Experiential Learning as encompassing Global Learning, Service-Learning, and Experience-Driven Learning. Chair Wagner presented a draft of the composition of the transitioned committee. Rudge was asked to bring the change to the Executive Board for approval. Currently the marketing department and course design staff are holding workshops to teach faculty how to shape their courses to successfully apply to have their course recognized as an experience-driven learning course. There was discussion regarding how to create a system in which faculty have more input into the process.
