New Business

There was a discussion of the assessment document instructions. Several recommendations to consider (adding information such as submission timeline, links to example assessments, clarification of template questions, additional subsection about large and small size classes, multiple sections, a section on academic freedom, etc.).

There was discussion of example assessment plans regarding clear evidence of rubric criteria for each Student Learning Outcome (SLO) while maintaining academic freedom. The assessment plan should provide information that allows the WMU Essential Studies Course Review and Approval Committee to understand how the SLOs thread through the course and are assessed.
