BIOS will need to put through a proposal to add NDDJ as a major that can take the course. I can't open the letter from biology in Files, so I don't know if that's their intention. **Emailed Adam Manley so he knows to request this curriculum change. 10/2 --- Responding to	Hold for next meeting	Carol Weideman Al Hart-Young	Unanimously approved

They are actually removing LS 6300 and LS 5100. • The "Current vs. Proposed ESL... "document still includes LS6300 in SPY1 for the revised program. It should be TEL 6100.	Approve with revisions	Carol Weideman Gabriel DeLong	Unanimously approved

					information being removed could be changed to red and crossed off and information being added could be highlighted in yellow, to make changes more obvious. • Adjust the rationale and strategic plan sections. • Address the effect on other departments including SPLS and TLES			
19.	Ángel Gullón-Rivera	Undergraduate Program Change (not Name Change)	Child Development and Services Major (CDSJ)		• Make sure that the grade listed for ED 3090 is just a C, rather than a CB, in the catalog copy. Specifically, remove "a grade of "CB" or higher in ED 3090 is required to enroll in ED 3690" next to ED 3090. Remove "prerequisite: a grade of "CB" or higher in ED 3090" next to ED 3690. • Add effect on current students- there is an effect, in that students must earn a higher grade, and this may need to be communicated via advising. Even though a C in FCS 2140 and ED 3090 would pull into DW for a CDS major, they couldn't move forward into the next course (ED 3090 or ED 3690) without a CB. • Adjust the rationale and strategic plan sections. • Articulation with Community College –Program agreements will be updated with new information as discussed with the Articulation Manager	Approve with revisions	Al Hart-Young Carol Weideman	Unanimously approved
