

Curriculum Vitae

AMY B. JESSOP, Ph.D., MPH

141 Whitemarsh Rd

Ardmore, PA 19003

a.jessop@uscience.edu

amy.jessop@heptrec.org

EDUCATION

Ph.D. Health Studies (now Public Health), 2000
Temple University, Philadelphia, PA.

Dissertation: Pneumococcal Vaccination Policies & Practices in Pennsylvania Nursing Homes.

Coursework included: Program Planning and Evaluation, Government Program Evaluation, National Public Policy, Theories of the Policy Process, Health Administration, Maternal and Child Health, History and Philosophy of Public Health, Sociology of Health, Research Methods.

MPH Epidemiology/ Quantitative Methods, 1994
The University of Medicine and Dentistry of New Jersey/Robert Wood Johnson Medical School; Piscataway, NJ.

Fieldwork: Risk Factors Associated with the Acquisition of Amikacin-resistant Gram-negative Bacilli in Central New Jersey Hospitals.

Coursework included: Epidemiology Research Methods, Infectious Disease Epidemiology, Environmental and Occupational Epidemiology, Chronic Disease Epidemiology, Health Behaviors, Biocomputing.

B.S. Microbiology, Minor: Health Education 1986
The Pennsylvania State University, University Park, PA.

PROFESSIONAL EXPERIENCE

University of the Sciences in Philadelphia (USciences)

Associate Professor

7/14- 7/17

Assistant Professor

8/07-- 7/14

Serve as Assistant then Associate Professor of Health Policy and Public Health with tenure in Mayes College of Healthcare Business and Policy. Develop and teach graduate courses (on-line and in-person) including Epidemiology, Health Service Research Methods, Health Information Technologies, Program Evaluation, Scope and Methods of Public Health, Survey of Public Health, Public Health Fieldwork and Public Health Capstone. Lecture and lead discussion in other courses including Public Health Management, Qualitative Methods in Research, Public Health and Pharmacy, and Quantitative Methods. Manage research methods components of doctoral comprehensive exams. Serve as research mentor and advisor for doctoral students in health policy and fieldwork and capstone advisor for MPH students. Chaired Serve on University level Institutional Review Board (IRB), graduate education and research development committee, promotion and tenure committee, and community engagement council. Serve on department and college-level committees including faculty and administrative search committees, Council for Education in Public Health (CEPH) self-study group and review committee, admissions committees, pre-tenure review committees, doctoral program research committee and

others. Conduct research in healthcare and public health including infectious disease epidemiology, viral hepatitis service provision, and immunization policies and practices.

Director, HepTREC

11/09- present

Serve as Director for HepTREC, a research and community service center within the Department of Health Policy and Public Health at USciences. Managed negotiations and compliance with federal, state, local, and university policies and procedures to move this independent community-based 501c3 agency to USciences. Manage staff and center's Advisory Board. Plan, develop, and coordinate the center's activities including seminars, workshops, research and evaluation projects, and fundraising. Assure compliance with HepTREC and USciences policies and federal regulations including HIPAA, FERPA, and human subjects protection in research. Represent HepTREC and USciences at government meetings, external conferences, advisory boards, presentations, and special events. Mentor students and fellows from USciences, Temple University, Thomas Jefferson University, George Washington University, and University of Pennsylvania working with HepTREC.

Assistant Program Director (MPH Program)

1/08-6/08

In conjunction with the Acting MPH Program Director and program faculty, initiated curriculum review in light of CEPH accreditation standards and reviewed and revised MPH fieldwork and capstone requirements. Interfaced with regional public health and healthcare agencies to foster collaborative relationships for student projects. Participated in the MPH Program Director search. Continued in this role until appointment of permanent MPH Program Director.

The Delaware Valley Hepatitis Treatment Research and Education Center (HepTREC)

Director of Research and Education

1/01- 11/09

Founding member of Board of Directors and Director of a 501(c)3 non-profit organization with a mission “to *reduce the impact of viral hepatitis in the Delaware Valley*”. Recruited, trained and managed staff and volunteers. Responsible for fundraising and project grant writing and administration. Designed, implemented and evaluated hepatitis-related education, research and support projects and activities. Research programs include examination of barriers to knowledge, prevention, diagnosis, and treatment of viral hepatitis for disparate communities, and clinical outcomes with hepatitis support group participation. Education programs include CME for clinicians and training and education programs for the public, social service professionals, policy makers and public health professionals. Served as an advocate for persons with viral hepatitis-related issues at pharmaceutical company advisory committees and local, state and national government agencies.

Quality Insights of Pennsylvania

Senior Epidemiologist

6/03- 1/05

Managed technical staff comprised of statisticians, data analysts, and information technologists for CMS Medicare Quality Improvement Program. Developed analysis plans and study designs, oversaw analysis of physician and beneficiary claims data, designed evaluations for healthcare quality improvement initiatives. Served as lead analyst on CMS disparities project designed to reduce disparity in diabetes care for African Americans in Philadelphia.

Temple University- Department of Public Health

Adjunct Faculty

9/00-12/03

Taught courses in Epidemiology and Public Health Data Management to students in Temple University's MPH and Ph.D. programs in Public Health.

Practice Programs and Research Director

11/99- 6/03

Directed fieldwork portion of Temple University's Master of Public Health (MPH) program. Assisted students in selecting appropriate field sites and projects, assured that students and agencies designed appropriate methodologies, and guided students through implementation and analysis of fieldwork projects. Served as recruitment agent for Public Health Department. Served on admissions and curriculum committees for the MPH program. Instrumental in development of proposals for new degree programs, program reports, CEPH accreditation report, and accreditation site visits.

Arcadia University- Department of Medical Science and Community Health

Adjunct Faculty

2001- 2007

Taught courses and lectured in Applied Research and Evaluation, Fieldwork, and Epidemiology.

Cooper Hospital - University Medical Center

11/94-9/99

Infection Control Coordinator/ Surveillance Officer

Regional surveillance officer for a CDC sponsored *Streptococcus pneumoniae* community immunization project. Established working relationships with laboratory, infection control and health information professionals in many New Jersey hospitals. Conducted regional surveillance to identify all inpatients with pneumonia and invasive pneumococcal disease. Extracted and collected information from laboratory reports and patient medical records including patient histories, antibiotic treatment and indicators of disease severity for all identified cases. Assisted the CDC and New Jersey Department of Health and Senior Services in the expansion of existing epidemiology surveillance systems, computerization of hospital laboratory reporting systems, and immunization education efforts.

ENVIROGEN, Inc., Lawrenceville, New Jersey

5/90 to 10/94

Research Manager

Managed research and development staff in this environmental biotechnology company. Responsible for understanding federal and state regulatory and health concerns related to environmental contaminants. Served as chair of the corporate safety committee and served on the emergency response, chemical safety and biological safety committees. Prepared NSF and SBIR grant proposals and reports. Planned research strategies, designed experiments, and interpreted effectiveness of the programs. Provided statistical and microbiology consultation for the corporation. Presented results to research staff, business groups, board of directors and at national meetings. Controlled a \$900,000 capital equipment budget and \$800,000 annual operating budget. Prepared monthly technical reports, yearly and quarterly budgeting reports, costing of procedures and project scheduling.

IRETA (The Institute for Research, Education, and Training in Addictions) 2001-2011

Instructor

Expert faculty for continuing education programs. Focus: Program Evaluation

Pennsylvania Department of Health

2000-present

Instructor

Developed and conducted instructional workshops on program evaluation, surveillance, and viral hepatitis for the Department's Public Health Institute and Bureau of Drug and Alcohol Programs.

Carter-Wallace, Inc., Cranbury, New Jersey

5/88-4/90

Assistant Scientist

Designed and implemented multifaceted research effort for the development of diagnostic immunoassay systems for *Streptococcus pyogenes*, *Borrelia burgdorferi* and *N. meningitidis B*. Evaluated test sensitivity and specificity. Developed new protocols for antibody and antigen purification. Collaborated

with the marketing department on test design and requirements and assisted the manufacturing department with assay production problems.

E.I. du Pont de Nemours Co. via Franklin Company, Wilmington, Delaware 5/87 - 5/88

Scientist- Designed and carried out research examining the host range specificity of the Human Rhinovirus and HIV. Molecular, biochemical and immunology techniques were employed in the effort to identify possible vaccine strategies. Served on corporate safety committee.

The Wistar Institute, Philadelphia, PA

6/86- 5/87

Research Technician- Carried out experiments examining neutralizing antibodies to CMV and other herpes viruses. Experimentation included microbiology, molecular biology and immunology.

CONSULTING

- The Caring Ambassadors. Program Evaluation Consultant for the SHAPE program, a program to improve screening and linkage to care for person affected by hepatitis C in the greater Chicago area, 2014-2016
- The Access Group, Inc. Hepatitis Partnership- Development of staff and patient training materials, 2013.
- National Nursing Centers Consortium (NNCC) – Assist development and implementation of CDC-funded viral hepatitis screening and linkage to care project, 2012-2013.
- The Consortium, Inc. Development and Evaluation of Hepatitis C Education and Care Management Pilot Program, 2011-2012.
- The Consortium Inc. Evaluation of HCV education and support program, 2008-2009.
- Public Health Management Corporation (PHMC). Development and evaluation of P-HOP a viral hepatitis outreach and screening project, 2008-2010.
- VERTEX Pharmaceuticals, Inc. Patient Readiness Steering Committee. Development of patient readiness program and tools, 2010.
- Canadian Federal Government, Networks of Centres of Excellence Program of Canada, Interdisciplinary Review Panel member, 2001.

SELECTED AWARDS AND RECOGNITIONS

- College of Physicians of Philadelphia, Public Health and Preventive Medicine Section Individual Award, in recognition of outstanding public health service, 2016.
- University of the Sciences, Homiller Award for Teaching Excellence finalist, 2015
- University of the Sciences, Homiller Award for Teaching Excellence finalist, 2014
- University of the Sciences, Lindback Award for distinguished teaching finalist, 2013.
- University of the Sciences, Teaching & Learning Center Travel Award for Educational Development, 2013.
- Pennsylvania Bio (Now PA Life Sciences), Scientific Achievement Award for outstanding achievement by advancing scientific knowledge, innovation, and patient care, 2012.

- Centers for Disease Control and Prevention, Hep B Hero Award (recognition for efforts to eliminate hepatitis B and liver cancer in the United States), 2011.
- University of the Sciences, Lindback Award for distinguished teaching finalist, 2008.
- Temple University College of Public Health, Public Health Graduate Alumni Award, recognition for advancing practice and service delivery, leadership, and scholarly activity that disseminates valuable information to the profession, 2008.
- PA Department of Health, Viral Hepatitis Award of Excellence, 2007
- Delta Omega, Honorary Public Health Society, Beta Theta Chapter, 2007.
- New Jersey Public Health Association, Student Presentation Award, 1996.
- American Society for Microbiology, Student Presenter Travel Grant, 1995.

ADVISORY COMMITTEES and ADVOCACY

- New Jersey Department of Health, Viral Hepatitis Policy Advisory Committee, 2009-present.
- ASTHO (Association of State and Territorial Health Officers), Development of a public health strategy for implementation of HCV screening recommendations, 2013.
- CDC (Centers for Disease Control and Prevention), Hepatitis C steering committee, 2011-2013.
- DIA (Drug Information Association) Patient Advocacy Fellowship and Advocacy Board Member, 2012-present.
- Kadmon Corporation, Viral Hepatitis Advocacy Advisory Board, 2012-present.
- HepCAP (Hepatitis C Alliance of Philadelphia), founding member, advisory committee member, provider education committee member, 2011- present.
- Hep B United, founding member, advisor, 2010-present.
- Genentech, Inc., Viral Hepatitis Community Advocacy Board, US Hepatitis C Advocacy Board, 2010-2011.
- Vertex Pharmaceuticals, Inc., Patient Readiness Steering Committee, 2010.
- Vertex Pharmaceuticals, Inc. Hepatitis C Patient/Community Advisory Board, 2008-2012.
- Roche Laboratories, Inc., Hepatitis C Patient Advocacy Advisory Board, 2006-2009.
- Pennsylvania Department of Health, Viral Hepatitis Advisory Group, 2004-2006.
- Philadelphia Hepatitis C Task Force, founding member, advisory board member, 2002-2007.
- Pennsylvania Legislator Education and Awareness Events, 2003-2005.

PUBLIC HEALTH LEADERSHIP

Hands for Life, a community-based nonprofit organization with a mission to improve health and healthcare access in Kamakwie, Sierra Leone. Member, Board of Directors, 2012-2014

Prevention Point Philadelphia, a community-based nonprofit organization dedicated to harm reduction efforts for drug users in greater Philadelphia, PA. Member, Board of Directors, 2004-2009 and 2011-present. Executive committee 2007-2009, and 2015-present, Board Secretary 2006-2008, Director, research committee 2012-present.

Philadelphia Immunization Coalition, a community-based nonprofit organization with a mission to promote appropriate immunization for residents of Philadelphia County, pursue resources for the promotion of disease prevention, and provide technical assistance and management training to promote immunization services and education. Member, Board of Directors, 2004-2009. Secretary 2006-2008.

HepTREC, Designer and Host- “Grantseekers workshop” a workshop for regional nonprofit health agencies to improve grantseeking initiatives, 2005.

HepTREC, a community-based organization with a mission to reduce the impact of viral hepatitis in the Delaware Valley. Member, Board of Directors, 2001-2009.

Delaware Valley Immunization Coalition- A regional nonprofit organization representing immunization stakeholders and leaders of PA, NJ, and DE immunization coalitions. Member and Vice Chair Board of Directors, 2001-2004.
